A simple example to compare ~~old and new~~ subsequent versions of a latex document

June 28, 2018

Abstract

An example about the very simple method to provide old and new version of a LATEXtext. The colour for the old text is orange the colour of the new one is in green. Suggestions are in orange between square brackets. Part of the text used for the example comes from the ~~interesting [self evident]~~ website www.lipsum.com, that explains what is Lorem Ipsum, and where does it come from. The history of Lorem Ipsum is here a Lorem Ipsum. Some sentences ~~are changed~~ have been changed for the purposes of this example.
[Please add more text here]

1 What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was ~~popularized in the sixties with Letraset sheets~~ popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.
